Cons_res_partition

```
graph TD; A[Cons_res_partition] --> B["Entity = virtual100 type=node<br/>NodeArchitectureInformation"]
```

The diagram consists of two rectangular boxes. The top box is orange with a black border and contains the text 'Cons_res_partition'. An orange arrow points from the bottom-right corner of this box to the top-left corner of a larger, light gray box below it. The light gray box has a black border and contains two lines of text: 'Entity = virtual100 type=node' in black and 'NodeArchitectureInformation' in orange.

Entity = virtual100 type=node
NodeArchitectureInformation

Cons_res_partition

Cons_res_topology

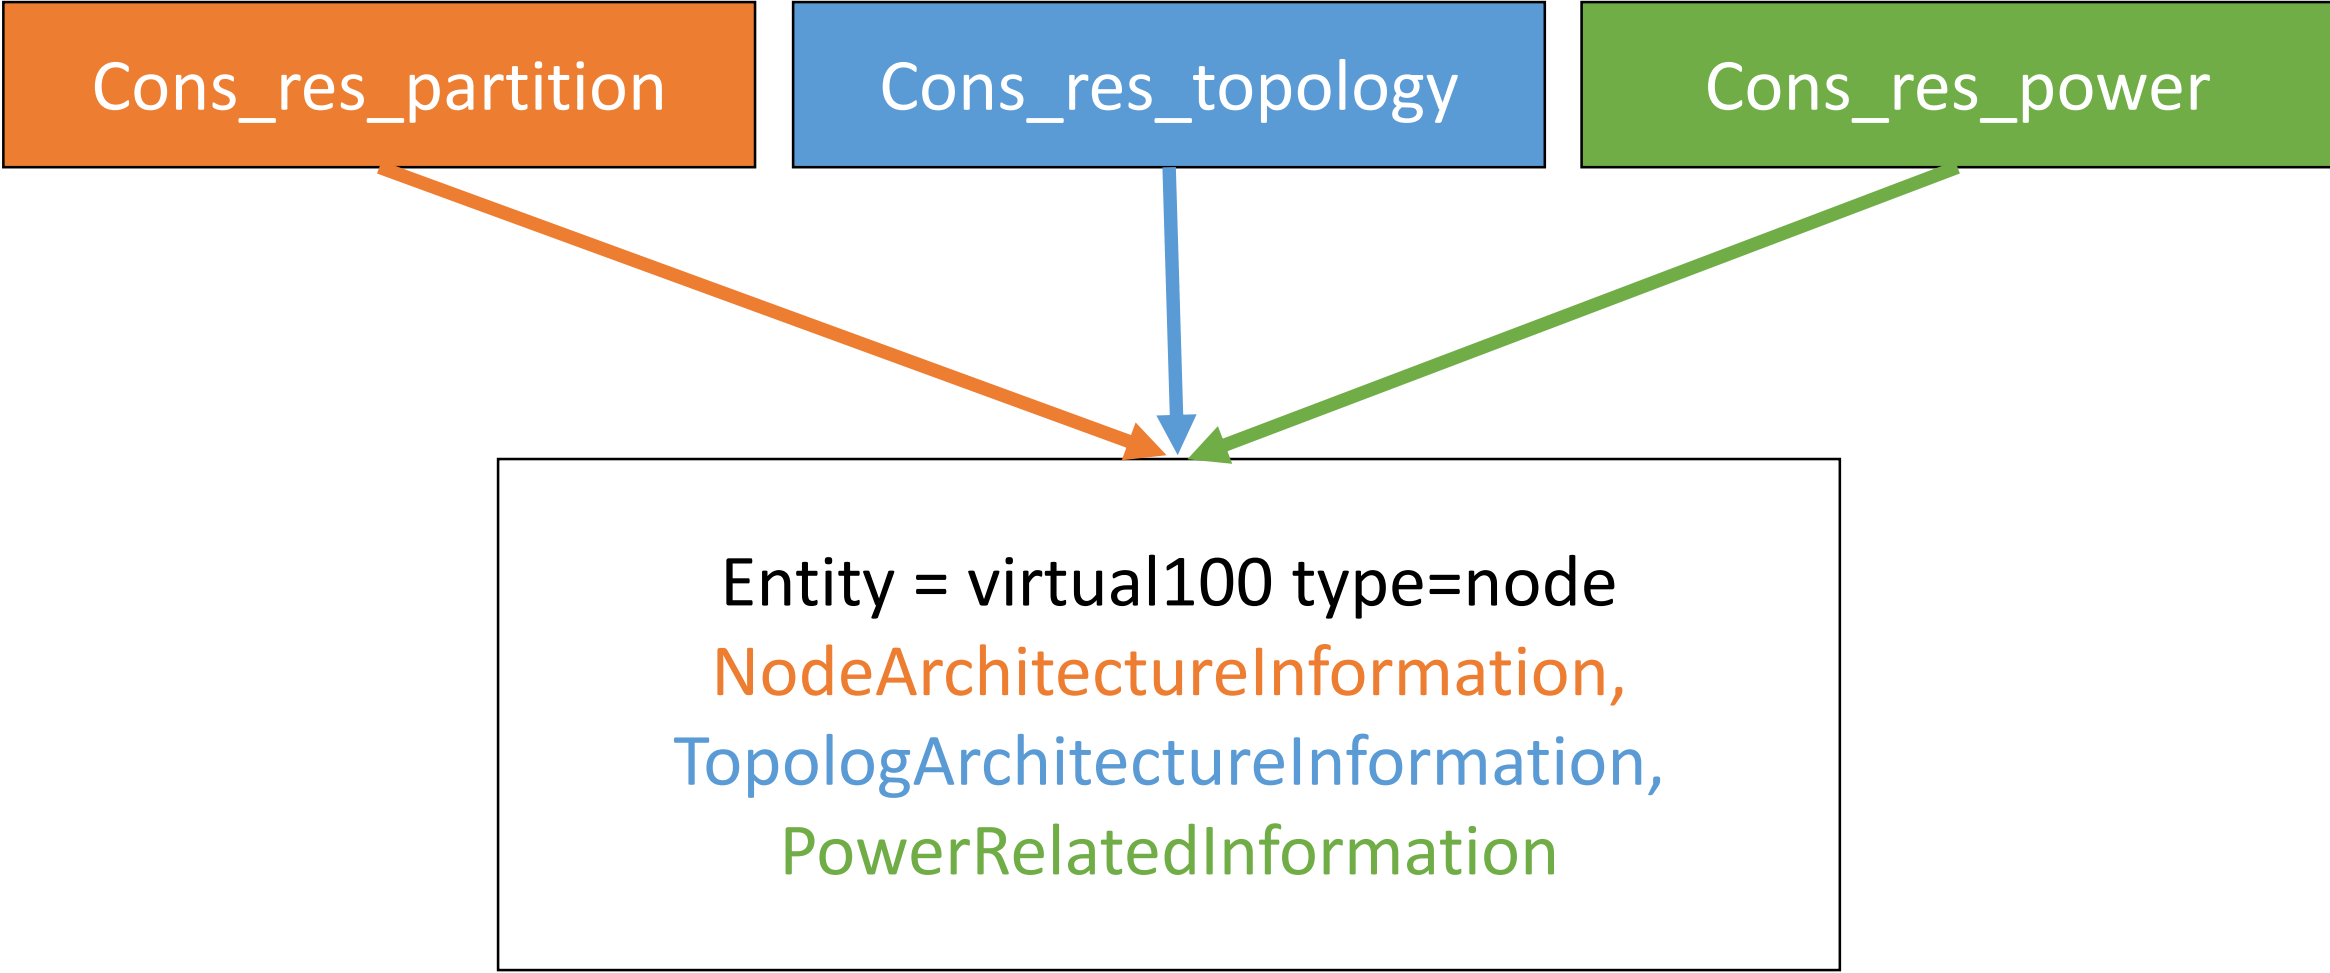

Entity = virtual100 type=node
NodeArchitectureInformation,
TopologArchitectureInformation

Cons_res_partition

Cons_res_topology

Cons_res_power

```
graph TD; A[Cons_res_partition] -- orange arrow --> D; B[Cons_res_topology] -- blue arrow --> D; C[Cons_res_power] -- green arrow --> D; D[Entity = virtual100 type=node<br/>NodeArchitectureInformation,<br/>TopologArchitectureInformation,<br/>PowerRelatedInformation];
```

Entity = virtual100 type=node
NodeArchitectureInformation,
TopologArchitectureInformation,
PowerRelatedInformation
